An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

On page 1 line 3 after "May 12, 2000" insert ---now U. S. patent 6,716,775----

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Applicant's remarks are convincing to overcome the rejections of the claims based on Otto. Since example 13 of Otto does not teach a fabric wherein at least a portion of the surface fibers has been immobilized in a temporary coating matrix, the fabric treated by sanding, abrading, sueding or any combination thereof, and subsequently removing the coating matrix. There is no teaching of removing a temporary coating matrix and then dyeing.

Applicant has overcome the obviousness double patenting rejection over the claims of US 6,716,775 by presenting a terminal disclaimer, which has been recorded in this office. Applicant has not presented a terminal disclaimer over US 6,112,318. The second TD presented has the same patent number as the first, that is, US 6,716, 775. However the rejection over 6,112,381 has been withdrawn since upon further comparison of the claims of the application with those of the patent, several differences are seen. The patent claims do not teach the step of removing the temporary coating

matrix, the patent claims require a frozen matrix while the instant claims do not, and the patent does not suggest or claim a range dyeing step.

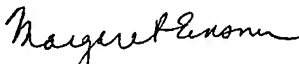

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
